RESUME

| 01/2022–09/2024	**LOGO** SOFTWARE DEVELOPMENT SPECIALIST · Ankara/Turkey 📍 • Worked as a Java software development specialist on a web-based human resources project called J-HR. Technologically, I used a Vaadin-based framework, java Core and MS SQL.
05/2021–09/2021	**Long Term INTERNSHIP– ULAK Communications** SOFTWARE DEVELOPMENT INTERNSHIP · Ankara/Turkey 📍 • Developed the CU Log Tracing App using Python to facilitate the viewing, filtering, and analysis of log files related to UE (5G phones) installation. Utilized the PyQt5 library for GUI design and implemented unit tests to ensure application functionality.
05/2020–08/2020	**Long Term INTERNSHIP – STM Defense** CYBERSECURITY INTERNSHIP · Ankara/Turkey 📍 • Worked in the cybersecurity department, writing Python scripts to automate attack surface analysis reports, utilizing OSINT tools for information collection and reporting results.
01/2020–03/2020	**Long Term INTERNSHIP– TSE** JAVA DEVELOPMENT INTERNSHIP · Ankara/Turkey 📍 • Developed a GUI-based customer registration system with features for adding, deleting, updating, and editing customer records. Enhanced the system by converting it into a java web application, utilizing JSP for the frontend and PostgreSQL for database management.
